PROFILE

Computer Science graduate with a strong interest in Software Engineering, Full-Stack Development, and AI-powered applications. Skilled in designing and developing web and mobile applications using Java, Python, JavaScript, C#, PHP, SQL, and Dart. Experienced with React, Laravel, Flutter, FastAPI, database management, and AI integration, with a solid foundation in algorithms, data structures, object-oriented programming, and software development principles. Passionate about building scalable software solutions, solving real-world problems, and continuously learning emerging technologies.

TECHNICAL SKILLS & COMPETENCIES

Programming Languages: Python, Java, JavaScript, C#, PHP, Dart, SQL

Software Development: Object-Oriented Programming (OOP), Data Structures & Algorithms, Software Design Principles, Debugging, Version Control (Git/GitHub)

Databases: MySQL, PostgreSQL, Firebase, Database Design, Query Optimization

Frameworks & Technologies: MERN, PERN, React.js, Laravel, Flutter, FastAPI, Livewire, Tailwind CSS, REST API Development

Development Concepts: Full-Stack Development, Backend Development, API Integration, Agile Development, Data Processing

Soft Skills: Problem Solving, Analytical Thinking, Communication, Teamwork, Leadership, Time Management, Critical Thinking

EDUCATION QUALIFICATIONS

Staffordshire University, UK

Bachelors (Hons) Degree in Computer Science

First Class
(2023 – 2026)

Selected Coursework & Results:

- Final Year Project: 84% (AI, ML, Data Analytics, Data Engineering)
- Data Analytics: 78% (Data Analytics, Data Engineering)
- Emerging Technologies: 81% (AI, ML, DL, LLM, Data Analytics)
- Software Development and Application Modeling: 88% (Software Engineering)
- Server-Side Programming: 81% (Software Engineering)
- Enterprise Cloud and Distributed Web Applications: 83% (AWS)

British Council

British Council English Course

2022

St. Anthony's college, Kandy

General Certificate of Education Ordinary Level Examination

2016

General Certificate of Education Advanced Level Examination

2019

ACADEMIC PROJECT EXPERIENCE

Completed university and personal projects involving software development, full-stack applications, backend systems, database management, API development, and AI-powered applications using Python, Java, SQL, FastAPI, Flutter, React, and modern web technologies. Gained hands-on experience in designing scalable applications, developing REST APIs, implementing software solutions, managing databases, integrating technologies, and applying software engineering practices to solve real-world problems.

PROJECTS

AI/ML-Based Personalized Diet and Nutrition Assistant	2025 - 2026
Developed an AI-powered personalized diet mobile application using Flutter, FastAPI, and Python, integrating machine learning models, food image recognition, calorie estimation, and personalized meal recommendations with scalable backend APIs.	
AI SaaS Application (PERN Stack)	2026
Developed an AI-powered SaaS platform using the PERN stack, implementing user authentication, subscription billing, and AI-driven features including article generation, image processing, and resume analysis with efficient backend data management.	
AI-Powered Resume Analyser Application	2026
Built an AI-powered resume analysis platform using React, TypeScript, Tailwind CSS, and Puter.js, integrating authentication, PDF processing, file storage, AI-based resume evaluation, ATS scoring, and personalized improvement recommendations.	
AI LinkedIn Post Generator Application	2026
Developed a Generative AI application using Python, Streamlit, and LLM APIs to analyze LinkedIn content, extract writing patterns, and generate personalized posts using prompt engineering and few-shot learning techniques.	
Beauty Write Mobile Application (Flutter & Firebase)	2024
Developed a mobile application using Flutter, Dart, Firebase Authentication, and Firestore, implementing responsive UI, user management, API integration, and real-time data storage with scalable architecture and optimized performance.	
Beauty Write Web Application (Laravel Full-Stack)	2024
Developed a full-stack stationery shop web application using Laravel, PHP, MySQL, MongoDB, Livewire, and Tailwind CSS, implementing backend functionality, database management, RESTful APIs, admin management, and responsive UI design.	
Inclusive Tourism Website (Group Project)	2024
Developed an inclusive tourism website using PHP, Laravel, and MySQL, following Agile project management practices while implementing database integration, backend functionality, and user-focused web features.	

LANGUAGES

English (Fluent)
Sinhala (Fluent)
